

Hello Bill, Thank-you from my husband and I for your truly "miracle" cream. I ordered it in December after seeing your story on the CTV news and checking out your web site (it is hard to refute video testimonials from 94-year-old women as seen on your web site). My Husband (age 67) started using it on his arthritic thumb joint (carpometacarpal joint and trapezium). He could not close his hand to make a fist and had much pain, especially with intentional action such as holding a jar. After using your cream faithfully for almost a month, his pain is practically all gone and he can make a fist and do things that he could not because of pain previously; hence he is a very happy camper. We have recommended your cream to several family members and friends; including my niece and great-niece who both suffer from severe migraines. I have also given a sample to my brother (age 69) who suffers from psoriatic arthritis. I will let you know how he fares. Keep up the good work. I am very happy that you have been overwhelmed with orders – you and your product deserve recognition and reward...I will be reordering in the next few weeks. Thanks again, Marie. P.S. When my husband picked up the cream at the post office, the clerk told him they had received another 4 or 5 identical packages for other people in our tiny community of around 900 on the same day, so obviously people pay attention to the news.

Marie and Barry, — Verner ON.

**Effective Temporary
relief from
Muscle and Arthritic Pain**

NPN 80060218

* As described by our customers – so that's the name of our product ☺.

Your body needs copper and now there's an all-natural, simple, smart, and safe way to get it. For thousands of years, dating back to the time of Cleopatra, copper has been recognized for its many health benefits - from increasing energy levels - to reducing pain associated with swelling, inflammation and arthritis.

Unlike popular copper bracelets that release microscopic traces of copper at the wrist - which in turn can take hours or even days to reach the part of the body that needs it the most - World's Best Cream delivers a proprietary blend of all-natural ingredients directly to the part of your body that needs it immediately.

How do we get copper? Foods such as seafood, beans, liver, almonds, avocados, barley and garlic and many more are excellent sources. There are also traces of copper in drinking water that flows through copper piping. If you cook with copper cookware - you are gaining the benefits of copper. But recent studies have shown that only about 25% of the population actually consumes the recommended daily intake for copper. World's Best Cream allows your body to absorb copper directly through the skin - resulting in reduced aches and pains. Simply rub the cream to the area of pain or inflammation when, and as often as needed.

Ingredients (COMMON NAMES): *Aloe Leaf Juice, Emulsifying Wax, Coconut Oil, Jojoba Oil, Stearic Acid, Avocado Oil, Disodium EDTA, Iso Propyl Palmitate, Dimethicone, Sodium Lactate, Allotoin, Optiphen Plus, Vitamin E Natural T-50, Lavender Oil, Copper, Silk Amino Acids, Lemon Peel Oil, Tea Tree Essential Oil, Lemon Eucalyptus Oil*

CUSTOMER TESTIMONIALS — sent to Worlds Best Cream inventor Bill Burley

I was quite impressed when I opened the package, the jar was absolutely beautiful! But the contents are where the magic really begins! I have suffered for over 30 years with Chronic Rheumatoid Arthritis that has left me with bent elbows and knees and a lot of pain. I have tried everything! From natural alternative healing techniques such as massage, Reiki, Trager, Shiatsu, Reflexology etc. to conventional medicinal remedies and medical treatments. I've been hospitalized several times for this condition and I have also received a disability pension for 30 years. When I first applied the World's Best Cream to my swollen and painful left arm/elbow, I was taken by the appearance and 'feel' of the cream. It is of a very luxurious consistency and also has a wonderful aroma. But the BEST part is what the amazing cream did. Within a few minutes of applying the cream, I felt complete relief from the muscle and joint pain that I had been experiencing. I used this cream often over the following weeks on both my arms/elbows, as well as on my knees, shoulders and neck. The results were incredible! I also noticed that after a while my pain has significantly diminished and I had no longer any need to reapply the cream. I was virtually pain-free for a couple of months before I felt the twinge of pain again. I was grateful that I still had some of the World's Best Cream left in the jar to take care of it! I must say that I am very pleased with the results and I believe the name says it all! This may very well be the World's Best Cream.

Penny C., — Erin, Ontario

My husband has a problem with chronic soreness that gives him pain all the time in the back of his neck. We tried your cream before going to bed last night and this morning when he woke up he said that he never had such relief! He is using (our first jar) sparingly because he doesn't want to run out. Second, my mother in law has arthritic pain in her knees and hips - she also tried the cream and believe me - she's a hard one to convince of anything. She loves working in her flower garden - but it has been hard with the excruciating pain in her knees and hips - so she gladly volunteered to use your cream. She called me all excited and said "I don't know what he has in this cream but tell him not to change a thing - this is the best product ever - it works!!!"

Nicky J., — Sudbury, Ontario

I bought the Worlds Best Cream because of pain in my hand which hurts tremendously. Then one day my sciatic nerve was acting up badly, I applied the cream about 4 times and my pain went away. Thank you Bill!

Lawrence C., — Killarney, Ontario

I have had bad knees for many years, I have been a carpenter all my life. I used the Worlds Best Cream for about 7 days straight and the pain went away! It has been a month and the pain hasn't come back.

Percy D., — Parry Sound, Ontario

FREQUENTLY ASKED QUESTIONS

1. How often can World's Best Cream be safely applied? (Recommended dose)

Apply to affected area three times per day for the 1st week, two times per day for the 2nd week, and once daily thereafter up to 4 weeks as needed. For external use only. Avoid contact with the eyes and mucous membranes. Do not apply to wounds or damaged skin. Do not tightly bandage. Do not apply with external heat, such as an electric heating pad, as this may result in excessive skin irritation or skin burn.

2. How do you apply the cream?

Rub a small amount to the painful area and continue rubbing until the cream disappears. We encourage you to visit our web site www.WorldsBestCream.com for specific video demonstrations on the link "How To Use".

3. Within what time frame can someone expect to see results?

Some people will notice within 5-20 minutes that the cream is working. Our customer feedback over a 24-month testing period indicates that about 95% of the time the cream is effective and provides part or all of their intended result. Again, individual results will vary and Worlds Best Cream can not guarantee that the product will work on everyone.

NOTE: Copper is a naturally-occurring trace mineral in humans. In fact, it is the fourth most abundant mineral in our bodies.

Recommended use or purpose: Temporarily relieves aches and pains or muscles and joints associated with one or more of the following: arthritis, simple backache, lumbago, strains and sprains (involving muscles, tendons, and/or ligaments). Customers have also reported successful use of product for neuropathy when applied morning and evening to their feet.

Risk Information: Keep out of the reach of children. If accidental ingestion occurs, call Poison Control Center immediately.

If skin irritation develops, discontinue use. If irritation persists (or worsens), consult a health care practitioner. If you have impaired liver function or are pregnant and/or breastfeeding, consult a health care practitioner prior to use.
